

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 1600 on Monday 04 Oct 2021

++ Valid for broadcast between 1800 and 0600

Headline:

Wet and windy weather spreading into England and Wales tonight.

This Evening and Tonight:

Early evening rain, heavy at times, over parts of Wales and southwest England spreads north and east into the rest of England, reaching parts of southern Scotland later. Coastal parts of England and Wales turning windier. Clearer and drier elsewhere.

Tuesday:

Northern England mostly cloudy with spells of rain. Rain also developing across parts of eastern England later. Otherwise, sunny spells but also some showers in the west. Windy.

Outlook for Wednesday to Friday:

Cold start Weds; cloud and rain push northeast through the day and into Thursday. Rain likely becoming persistent and heavy across the northwest. Settled elsewhere; warm after early fog clears.
